Apparatus model/Product: Hybrid solar inverter

Type: InfiniSolar plus 3k  
InfiniSolar Super 4k  
InfiniSolar plus 5k  
InfiniSolar 10k

**Object of the declaration** (identification of apparatus allowing traceability; it may include a colour image of sufficient clarity where necessary for the identification of the apparatus):

**Proof of conformity according to FNN document**

**"Anschluss und Betrieb von Speichern am Niederspannungsnetz"**

**(Connection and operation from storage on the low-voltage network)**

Requirements from the FNN document "Connection and operation of storage system on Low voltage network".

**Requirement 4.10 from FNN document**

Storage System without service cover from the public network

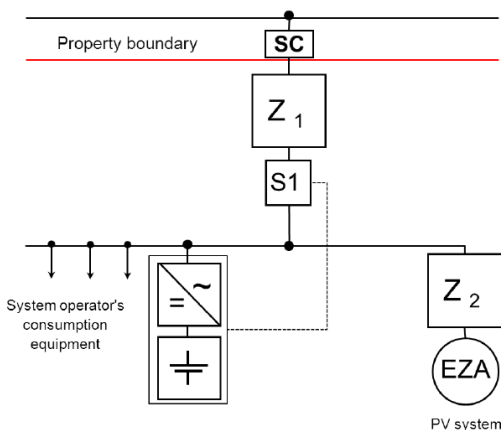

If the storage system is to be fed into the public network, no reference from the network to the storage of the memory may take place.

**Requirement 4.11 from FNN document**

To prevent the feed the energy flow at the mains connection point is indicated by a counter (sensor of the storage system).

These data are transmitted to the inverter.

Voltronic confirms that a function test (type test) of the sensor of the storage system Took place. It is also the proper function of the sensor of the storage system confirmed.
